FAR Disclosure Cases

December 31, 2016

The Federal Acquisition Regulation (FAR) requires government contractors to disclose credible evidence of violations of federal criminal law under Title 18 of the United States Code and the False Claims Act to agencies' OIGs. As disclosures are made to our office, we examine each one and make a determination as to what actions, if any, are warranted. Below is a table of FAR disclosure cases the Office of Investigations closed between October 1, 2016 and December 31, 2016.
