

FOREWORD

This audit plan is the culmination of our planning efforts for Fiscal Year 2022. We developed the audits identified in this document after considering GSA's strategic goals and performance measures, legal and regulatory requirements, and issues raised by GSA management, as well as our own assessment of challenges and risks facing GSA. Our goal in developing the Fiscal Year 2022 Audit Plan is to demonstrate how our office can help GSA management improve their programs and operations and best protect American taxpayer interests.

The audits identified in this plan represent our highest priorities. Collectively, these audits will assess many GSA programs, systems, operations, and internal controls; respond to requests from GSA management; and address issues mandated by law or regulation. This plan also provides time for our office to provide audit support to contracting officials in carrying out their procurement and administration responsibilities. Finally, this plan allots time for our continued support of the Department of Justice's resolution of False Claims Act cases.

I want to thank GSA management for their assistance. We carefully considered their comments, suggestions, and requests during our preparation of the Fiscal Year 2022 Audit Plan.

R. Nicholas Goco
Assistant Inspector General for Auditing

FISCAL YEAR 2022 AUDIT PLAN

The *Fiscal Year 2022 Audit Plan* represents our forecast for allocating available resources during the fiscal year.

This plan anticipates a resource mix using 55 percent of available direct staff for internal audits and 45 percent for contract audits. This mix reflects our emphasis on audits of GSA's major programs, systems, internal controls, and regulations. This plan includes audits of GSA programs, policies, and procedures on purchases through commercial eCommerce platforms, leasing services, and robotic automation security. In addition, we will continue to provide contract audit services to assist GSA contracting officials in carrying out their procurement responsibilities.

We anticipate that GSA managers and other government entities will request additional audits over the coming year. We will strive to respond to these requests as resources permit.

CONTRACT AUDIT SUPPORT

In Fiscal Year 2022, we will continue our contract audit coverage through preaward and postaward audits. The goals of these audits are to ensure that contracts are reasonably priced for customers and adhere to the contracting requirements set forth in the Federal Acquisition Regulation.

This audit plan provides resources for assisting contracting officials with evaluations of significant proposals and contracts. In conjunction with FAS officials, we identified approximately 32 potential preaward audits of Multiple Award Schedule contracts. This plan also allows for flexibility to perform other types of contract audits, as needed, at the discretion of each audit office based on materiality of the contract and availability of resources. These include audits of construction claims and cost accounting standards, cost or pricing audits, and postaward audits.

Furthermore, we have allotted 3,000 hours as part of our continuing effort to assist the Department of Justice in the resolution and settlement of False Claims Act cases. These cases require a labor-intensive, long-term commitment, spanning multiple years. Over the past 5 fiscal years, we have aided the Department of Justice in the successful resolution of these cases, resulting in settlements in excess of \$133 million.
