The Inspector General Act of 1978, as amended, established 73 independent Offices of Inspector General within federal agencies to provide oversight and to promote economy, efficiency, and effectiveness throughout the federal government. Today, over 14,000 OIG employees work to detect and deter waste, fraud, abuse, and misconduct in federal programs and personnel. This work has resulted in recommendations for hundreds of billions of dollars of potential savings, tens of thousands of successful prosecutions, and transformational government reforms.
